Erbil Gastroenterology & Endoscopy
International Conference & Exhibition

For the **First** Time in Iraq and Kurdistan

Endorsed By

WEO

World Endoscopy
Organization

The World Endoscopy Organization (WEO) is a global non-profit medical organization dedicated to advancing the quality, safety, education, and accessibility of digestive endoscopy worldwide. Founded in 1962 and headquartered in Munich, Germany, WEO serves as the leading international voice of endoscopy, bringing together endoscopists, scientific societies, training centers, and healthcare professionals from across the globe.

Through its educational programs, research initiatives, guidelines, outreach activities, and Centers of Excellence network, WEO promotes high standards in endoscopic practice, supports professional training, and works to improve patient care, particularly in developing and underserved regions.

For the **First** Time in Iraq and Kurdistan

Endorsed By

Emirates Digestive Diseases Week (EDDW) is the region's leading platform dedicated to advancing care in gastroenterology, hepatology, endoscopy, and digestive surgery.

For the past eight years, EDDW has brought together a distinguished community of gastroenterologists, hepatologists, surgeons, researchers, and allied healthcare professionals from across the Middle East And beyond. Uniting clinical expertise, scientific discovery, and real-world practice.

EDDW 2026 continues this legacy as a premier meeting point for leaders committed to redefining digestive health. From showcasing pioneering research and breakthrough therapies to fostering multidisciplinary dialogue and strategic partnerships, the conference is designed to translate innovation into better patient outcomes regionally and globally.
