Message from the President

Dear Colleague,

It is with great pleasure that the World Endoscopy Organization invites you to **ENDO 2017** - the First World Congress of Gastrointestinal Endoscopy, on February 16-19 2017 in Hyderabad, India.

ENDO 2017 will recognize the technological advances in endoscopy and in parallel address the increasing complexity faced by endoscopists. It is high time the endoscopy community is brought together to stimulate international exchange and to establish best practices.

The Scientific Program includes cutting-edge information on a broad range of Gastroenterology, Hepatology and Oncology topics presented from the perspective of an endoscopist.

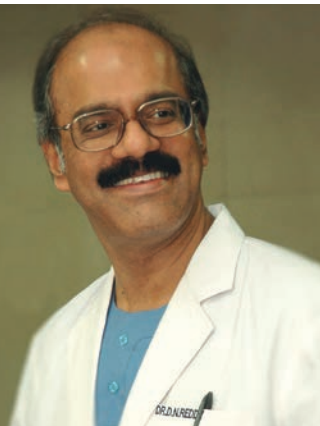

Presentations will combine basic science and clinical practice, with a spotlight for topics relevant to the Asia-Pacific region and emerging countries. It is fitting that **ENDO 2017** should happen in India, a prime example of an expanding emerging nation, with many opportunities. Hyderabad has direct connectivity to many Asian-Pacific cities, with a well-established network of hotels and top-quality airport.

With **ENDO 2017**, we are shaping a landscape that is challenging and exciting in equal measure. Join us in putting the future in focus.

Very best regards,

Nageshwar D. Reddy
